

# **King Titan in the Ocean**

## **How to install ?**

### **FiveM :**

Copy this folder into your servers resources folder and add "start xtxvtxx\_kingtitan" to your server.cfg and that's all you need to do.

### **Single Player :**

Copy this folder into "mods/update/x64/dlcpacks"

Then add the following link to the bottom of your dlclist.xml which is located at "mods/update.rpf/common/data"

dlcpacks:/xtxvtxx\_kingtitan/
